## My experience

In my highschool we had a cancer research club. **I was treasurer** for it. While we did not deal with as much money as the trampoline club I still **took care of the finances**. We would get **grants** and **loans** from my school to host events. I had to workout how much **money** we needed to be able to run these events and request it. We also **raised money** for cancer research through bake sales. I would **count and keep the money safe** that we raised from these before handing it over to be donated. So I am confident I can take care of the trampolining finances.

I like numbers (a LOT)

- I got an **A+** in **Calculus** and **100%** on my **algebra** midterm

**As

money one way or

**Stay organised  
and on top of  
everything**

**Fulfill all my duties  
as treasurer**
