

JESS FOR SEC

By Jess (for sec)

ABOUT ME

Drink of choice is a double vodka cran

I am a third year medicinal chemistry student

Favourite dance move: the stanky leg

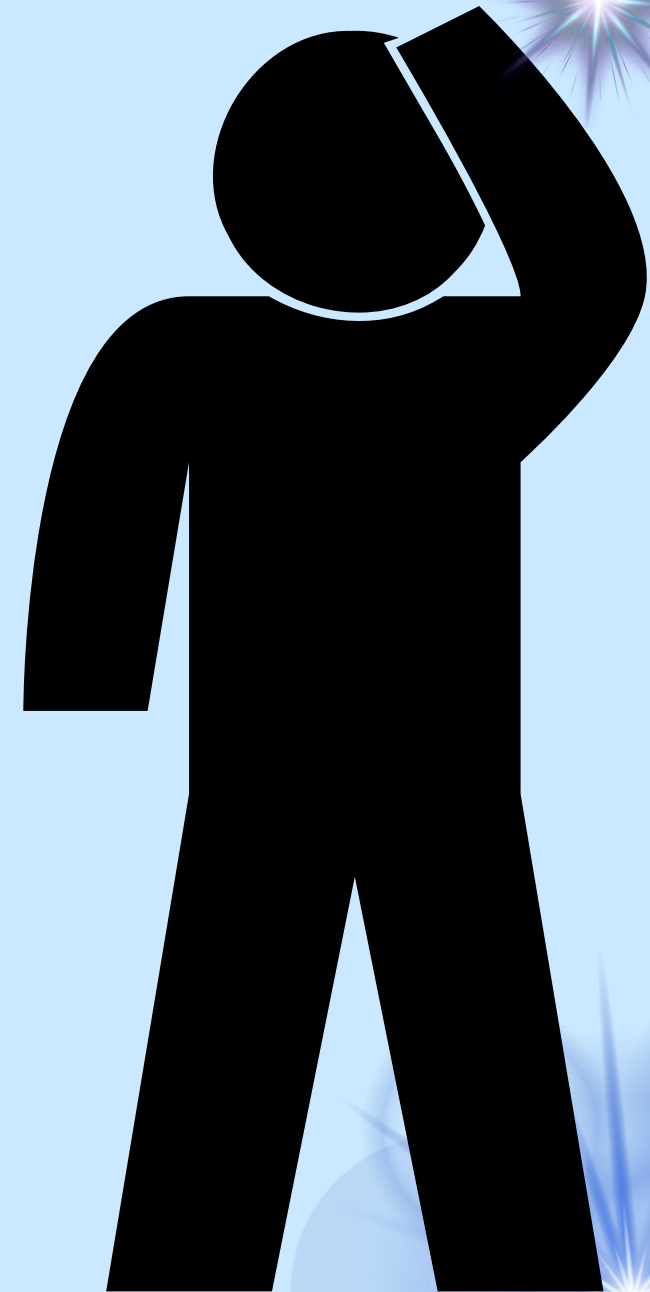

This is my second year as a tramp

I consider clubhouse chips as 1 of my 5 a day

WHY ME...

???

CAR...

NO BUT REALLY:

Definitely not soap

I am very organised

I was events officer for Sci-Soc so I have experience being on a committee and organising, events, charity fundraisers and fun events (I helped organise sciball)

I have experience writing extensive amounts of emails, to lecturers, UCD students as well as contacting other universities as I had to organise the module set up when I went on exchange. This means I can effectively communicate information and be persuasive

As a fourth year I will be glued to my laptop

I've never not made it home without my phone, keys and wallet

I make sure people are fed (really good information)

I was hired by Lockton insurance company to organise all of their files in order for them to be digitised. This involved taking note of the contents of the file, organising the files into boxes and making an excel sheet to keep track of where everything is.

If I can keep track of my chemistry results I can keep track of anything 

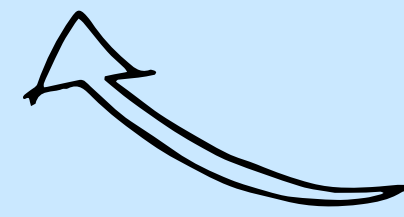

I have done work experience in a library and KNOW how to organise anything. The Dewey decimal classification system will always have a place in my heart.
